PROFILE SUMMARY

Computer Science Engineering graduate with strong fundamentals in Java, SQL, Object-Oriented Programming, Data Structures and Algorithms, and database management. Experienced in developing backend functionality, REST APIs, and database-driven applications through academic projects and software development internship. Seeking an entry-level Software Engineer role to apply programming and problem-solving skills in a professional environment.

EDUCATION

VIT-AP University, Amaravati <i>B.Tech in Computer Science Engineering</i>	2022 – 2026 <i>CGPA: 8.07</i>
Tirumala Junior College, Bhimavaram <i>Higher Secondary (MPC)</i>	2020 – 2022 <i>Percentage: 95.4%</i>
Chaitanya E.M. High School, Yendagandi <i>Secondary School Certificate</i>	2020 <i>Percentage: 79%</i>

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL, JavaScript
Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms
Backend: Node.js, Express.js, REST APIs
Database: MySQL
Web: HTML, CSS
Tools: Git, Postman

EXPERIENCE

Silicofeller <i>Software Developer Intern</i>	Jun 2026 – Aug 2026 <i>Gannavaram, Andhra Pradesh</i>
- Contributed to assigned software development activities as part of a development team. - Worked under mentorship to complete assigned development tasks and follow software development practices. - Collaborated with team members during implementation and testing of assigned application components.	

PROJECTS

Secure File Transfer Web Application <i>Java, Node.js, REST APIs, MySQL</i>	2026
- Developed a secure web application for file transfer with authentication and role-based access control. - Built REST APIs for file handling, metadata management, and communication between application components. - Integrated backend functionality with a web interface using HTML, CSS, and JavaScript. - Implemented encryption and validation mechanisms to protect files and support secure data transmission.	
Student Attendance Management System <i>Node.js, JavaScript, HTML, CSS, MySQL</i>	2025
- Developed a web-based application to manage and track student attendance using Node.js and MySQL. - Implemented backend functionality for attendance management and database operations. - Designed SQL queries to retrieve attendance records and generate reports for efficient data retrieval.
